Mouhammadou Oury Diallo

Fullstack JavaScript developer

Arrondissement de Dakar-Plateau, Région de Dakar, Sénégal

Résumé

I am a Software Engineer specialized in Web Development with JavaScript. My deep passion consists of building Web applications with a friendly User Interface to improve productivity and bring solutions to business or industry. I am currently working at OMEDEMA as a FullStack Developer to build a Match Marketing Platform that helps International companies find right partners in Africa. I also provide courses as a FullStack Js instructor at Gomycode, a school that forms young generation about new technologies.

Skills : ReactJs, NextJs, TypeScript, TailwindCss, NodeJs, Express, Rest-API, MongoDB, back-end, Wordpress, AWS.

Expérience

OMEDEMA

Full-stack Developer

septembre 2021 - Present (1 an 6 mois)

France

- Work on Omedema's Landing Page
- Develop the landing Page using NextJS, TailwindCss, TypeScript, NodeJS.
- Make Unit tests for all components using Jest, react-testing-library, Enzyme.
- Write integration tests with Jest and Enzyme.
- Work on Omedema's Platform-app
- build forms for signing in the platform with react-hook-forms.
- build the entire live-chat using Socket-io to put in place the real-time chat feature.
- install the State management feature for the app with Redux-toolkit.
